

## SPEED AND FORGIVENESS MAXIMIZED

### FEATURES:

- NEW SHAPE FOR OPTIMIZED AERODYNAMICS AND FORGIVENESS
- SPEED INJECTED<sup>TM</sup>
- TWIST FACE<sup>TM</sup>
- LOFT SLEEVE<sup>TM</sup>

FEATURE	BENEFIT
Revolutionary New Shape with Aerodynamic Asymmetric Sole and Inertia Generator	Designed to provide faster clubhead speed for more ball speed and distance while the rear weight creates high MOI for improved forgiveness
Speed Injected™ technology for intelligently optimized C.O.R. where golfers typically hit it	Improves ball speed across the face by calibrating each head to the threshold of the legal speed limit
Twist Face™ technology with slightly larger face area	Uses corrective face angles designed to overcome inherent golfer tendencies on mis-hits and to produce straighter shots while providing a larger face for more confidence
Multi-Material Construction with Carbon, Titanium and Steel	Creates a head design where weight is positioned precisely in the head for ultra-low CG and high MOI
2-degree Loft Sleeve™	Provides adjustability and personalization to optimize the club for each golfer's trajectory and face angle preferences
