

FEATURE	BENEFIT
EXPANDING THE MODERN SHAPE OF STABILITY	Spider GTX sets the standard for performance and construction. The GTX shape resembles the past Spider shapes with True Path and a new extreme back weighting for forgiveness.
LIGHTWEIGHT ALUMINUM CAP	Made from lightweight 6061 Aluminum, the 194 gram top allows more weight to transfer to the outside of the frame
BACK WEIGHT STABILITY BAR	The back weight ring is made of heavy stainless steel – 154 grams, that creates a deeper CG for less face rotation and enhanced stability.
PURE ROLL² INSERT	The firmer co-molded insert, manufactured of black TPU urethane with silver aluminum beams at a 45° angle designed to improve topspin across the face.
TRUE PATH ALIGNMENT	The white space in the center of the putter helps frame the ball and creates a path to the hole.

SHAFT	MEN'S GRIP	WOMEN'S GRIP
KBS 120 Chrome Stepped Shaft	SuperStroke GT 1.0 (Grey/Black/White)	SuperStroke GT 1.0 (Pink/Black/White)
		SuperStroke GT 1.0 (Ice Blue/Black/White)

HOSEL	FINISH	HAND	TOE HANG	LENGTH	LOFT	LIE
Small Slant (#3V)	White	RH/LH	18°	34", 35"	2.5°	70°
Single Bend (SB #7)	White	RH/LH	Face-Balanced	34", 35"	2.5°	70°
Small Slant (#3V)	Silver	RH	18°	34", 35"	2.5°	70°
Single Bend (SB #7)	Silver	RH	Face-Balanced	34", 35"	2.5°	70°
Center Shaft (CS)	Silver	RH	Face-Balanced	35"	2.5°	70°
Small Slant (#3V)	Black	RH/LH	18°	34", 35"	2.5°	70°
Single Bend (SB #7)	Black	RH/LH	Face-Balanced	34", 35"	2.5°	70°
Small Slant (#3V)	Red	RH/LH	18°	34", 35"	2.5°	70°
Single Bend (SB #7)	Red	RH/LH	Face-Balanced	34", 35"	2.5°	70°
Single Bend (SB #7)	Ice Blue	RH	Face-Balanced	33"	2.5°	70°
Single Bend (SB #7)	Pink	RH	Face-Balanced	33"	2.5°	70°
