

# STEALTH DRIVER

FEATURE	BENEFIT
<b>60X CARBON TWIST FACE</b>	Twenty years of development marks the end of the titanium era. The all new 60X Carbon Twist Face is 44% lighter than an equivalent titanium face, while also being 11% larger than SIM2 and SIM2 Max drivers and nearly 20% larger than the 2020 SIM driver. Sixty layers of carbon fiber have been strategically designed to optimize energy transfer to deliver fast ball speeds over a large area, resulting in optimal distance and forgiveness.
<b>NANOTEXTURE COVER</b>	The 60X Carbon Twist Face is encased by a polyurethane cover, featuring a revolutionary new nanotexture technology. The nanotexture cover is used to fine tune launch and spin to optimize total distance regardless of playing conditions.
<b>HIGH MOI DESIGN</b>	The weight savings of the 60x Carbon Twist Face has allowed more weight to be positioned low and deep in the head, this will add 15% more MOI compared to Stealth Plus+.
<b>ASYMMETRIC INERTIA GENERATOR</b>	The Inertia Generator remains the foundational source of refined aerodynamic properties. The result is a slippery-fast head shape that aids in swing speed generation on the downswing for golfers at every level.

**THRU-SLOT SPEED POCKET** Our most flexible Speed Pocket™ design engineered to maximize ball speeds and produce additional forgiveness on low face strikes.

LAUNCH AND SPIN	FLIGHT BIAS
Mid-High Launch with Mid-Low Spin	Neutral

CLUB	LOFT	HAND	LIE	VOLUME	LENGTH	SW
Stealth Driver	9.0°	RH/LH	56° - 60°	460cc	45.75"	D4/D5
Stealth Driver	10.5°	RH/LH	56° - 60°	460cc	45.75"	D4/D5
Stealth Driver	12.0°	Rh	56° - 60°	460cc	45.75"	D4/D5
