

TAYLORMADE JUNIOR SPEC EQUIPMENT

As your game grows, so should your equipment. TaylorMade introduces customized Junior Spec clubs, delivering premium in-line products fit for the intermediate junior golfer. It ensures high-level performance throughout the bag for the competitive or aspiring player dedicated to improving. Junior Spec clubs are the gateway to a higher level of golf.

DETAILS:

TaylorMade's Junior Spec offerings include more than a dozen shaft options and every in-line TaylorMade product. Shorter lengths and lighter swingweights make them fully customizable for junior golfers who have outgrown boxed sets, but are not quite ready for full-length equipment. Additional grip offerings and a range of loft/lie options allow for precision fit equipment that helps the golfer unlock their full potential.
